

SALCERA

Sally's Cold Wax Medium Recipe

Ingredients

- 200g beeswax pellets
- 200ml Gamsol, other odourless mineral spirits are available but this is the purest.
- 40ml Galkyd resin or Alkyd medium

NB For safety reasons do this in a well ventilated room or outside!

1. Melt wax in a metal pan but NOT over a direct heat. I heat mine in a metal jam-making jug on a hotplate.
2. Mix the Gamsol and Alkyd resin in a jug.
3. Once clear take the wax off the heat.
4. Stir the Gamsol solution into the melted wax
5. Poor into a suitable container. I use empty 75ml paint tins.
6. Stir occasionally whilst it cools.

By using Alkyd Resin (rather than Damar) this recipe is compatible with Gamblin products.
